

RRD ADDICTION 2009

"Endless power, smooth control"

Sizes: 14-12-10,5-9-7-5

Program: HANGTIME/RACING

The new **POWER BOMB** in the 2009 line. Based on a D-shape kite with a relatively open LE arch, the Addiction is the kite for power freaks that want to get lift and endless progressive power.

Simply a real Formula 1 engine with 1,000 Hp. But the surprise will happen when you start to release the bar and sheet out that power. It's like riding on butter, the beast will become a sweet docile friend ready to be stopped and sit on the window with no fluttering and no strange moves in the sky. A perfect kite that will redefine the idea of hi-performance in the kiteboarding scene.

Features

- Stability
- Superior Power
- Progressive smooth de-power
- Medium/Light Bar pressure
- Unbeatable Lift
- Great re-launching

Technology of construction

- New SPS system with a new designed inflating valve;
- LE Parallel seams for maximum strength and lower stretching on leech area;
- Horizontal seams in the maximum profile areas for optimized shape;
- Insignia double tape leech;
- PVC round label strut end protectors;
- Metallic PU strut end reinforcements;
- DP 175 LL Dacron and Tejin T9600 Canopy;
- New moulded struts protectors;
- New PVC Inflating valves protectors
